ECN No:	13
Date:	14 January 2013
Affected Product:	Excel Keystone Patch Panels
Effective Date:	From 1st Quarter 2013 onwards depending on existing stock levels

As part of the Excel improvement process the rear cable manager design is changing on the products listed below. This redesign has enabled the depth of the cable manager to be reduced to permit better cable handling in densely packed and/or shallow cabinets and frames while maintaining performance.

The new cable manager and packaging will be introduced and supplied as stocks are replenished.

Shorter New Cable Manager Design alongside Current Design
